COMRAD CT01

About the device:

CT01 is a cutting-edge rugged tablet engineered to excel in industrial environments. Integrated with 3G/4G, WiFi, Bluetooth, and more, it ensures seamless connectivity across diverse operational settings. Its 8000mAh Lithium polymer battery provides over 9 hours of uninterrupted productivity, enhancing efficiency without frequent recharging.

Operating under the specialized software Comrad, CT01 offers optimized functionality tailored to industrial requirements. With IP65 protection level compliance and adherence to MIL-STD-810G test standards, it withstands harsh environmental conditions, ensuring durability and reliability in challenging work environments.

Equipped with GPS, GLONASS support, and a 13-megapixel auto-focus camera, the tablet facilitates precise positioning and efficient data acquisition, further enhancing its utility for industrial applications.
